Men's Game**

THREE MATERIAL OPTIONS

PCH889

RUBBER

Rubber on the outer layer, allows for good grip while hands are dry, but may become slippery with perspiration. Most affordable material for promotional grade options.

PCH890

PU

Soft polyurethane basketballs can be used on both indoor and outdoor surfaces. Unlike leather, synthetic leather does not need prolonged usage for the material to break in. Such basketballs give better control and grip.

PCH891

HYGROSCOPIC PU

A durable material, with great print effects, that is good at absorbing moisture while in use.

Soccer

PCH306 5 WEEK 7 WEEK

Training Soccer Ball

Material: PU + rubber

MATERIAL OPTIONS

PCH306

PU

PU is a thermosetting plastic that has excellent performance, is wear and tear resistant, featuring good elasticity and low temperature performance.

PCH307

PVC

Generally known for its hardness, it's a common thermoplastic used in the outer layer of promotional soccer balls. Best color effect produced when using screen print to customize.

Rugby

PCH559 **9WEEK**

Promotional AFL Ball

Material: PU

Product Color: Red, White, Blue

Product Size: Small, Circumference 12.60" x 6.69"
